**Mission of the Kitsap Conservation District**

- Guiding conservation without regulation;
- Educating by demonstration;
- Forming partnerships to accomplish more;
- We dedicate ourselves to involving the community in better farming practices and natural resource protection now and for the future.

**Natural Resource Priorities:**

- 1. Stormwater: Water Quality & Quantity**
- 2. Habitat Restoration: Shellfish and Salmon Habitat**
- 3. Agricultural Priority: Water Quality & Farmland Preservation**

○ ***Is this a state and or regional natural resource priority along with being a local priority?***

Yes. It is supported by the Puget Sound Partnership, Kitsap County government, Local Integrating Organizations, landowners, and tribes. Contracts with CWK form the majority of KCD's revenue and scope of work. These are three major program areas: Agricultural Technical Assistance program, Rain Garden/LID program, and Backyard Habitat/Stream Restoration program. Elements of the program areas fulfill portions of NPDES permits for Kitsap County and its cities. Additional grants target watershed specific concerns, many of which overlap these priorities.

○ ***Is this a state and or regional natural resource priority along with being a local priority? If yes, indicate supporting information:***

Our programs address high priority goals for the state and Puget Sound region and are tools to aid the Puget Sound Partnership as seen in the Action Agenda Highlights of August 2012 and the 2013 State of the Sound report. Our priorities are elements of the Vital Signs Dashboard. (see: [http://www.psp.wa.gov/downloads/AA2011/083012\\_final/Action%20Agenda%20Book%201\\_Aug%2029%202012.pdf](http://www.psp.wa.gov/downloads/AA2011/083012_final/Action%20Agenda%20Book%201_Aug%2029%202012.pdf) )

○ ***Source of data relied upon to indicate the resource concern:***

Puget Sound Partnership Action Agenda, Kitsap County Water as a Resource Resolution 109-09 (see: [http://www.kitsapgov.com/CWK/pdf/Water\\_resource\\_policy.pdf](http://www.kitsapgov.com/CWK/pdf/Water_resource_policy.pdf), and Kitsap Public Health District (see: <http://www.kitsappublichealth.org/environment/files/reports/Intro.pdf>

○ **Other entities engaged in addressing this resource concern:**

Kitsap Public Health District, Kitsap County and Tribes are engaged (the Suquamish, the Port Gamble S’Klallam, and the Skokomish), along with local watershed and citizen advisory groups.

**The following actions are examples of how we will approach Kitsap’s Natural Resource Priorities:**

- Implement programs that will conserve and enhance the natural resources of Kitsap County.
- Provide landowners access to technical assistance, incentive programs and educational opportunities.
- Enhance Kitsap County natural resources through the implementation of County Resolution #109 – “Water as a Resource” in KCD programs and Best Management Practices.
- Continue implementation of Best Management Practices that address Kitsap County stormwater management plan, Clean Water Kitsap (CWK).
- Continue Stream Stewardship & Backyard Habitat Program in Kitsap County through the CWK partnership by completing approximately 5 restoration projects each year.
- Continue implementation of the CWK LID program through KCD’s scope of work.
- Preserve farmers and farmland by providing technical assistance to manage stormwater and water quality on farmland.

## 2244

**The following actions are examples of how we will approach Kitsap's District Operations & Education and Outreach Priorities:**

- For FY15-16, complete effective and efficient operations including accounting, grant vouchering, personnel management, Supervisor elections & appointments, training & development, annual planning and reporting. The following actions are examples of how we will approach Kitsap's District Programs Priorities:
- Throughout FY15-16 promote public knowledge of local resource issues through community workshops, media articles, and special events such as the annual Tree Sale, Doo for You composting event, tours of demonstrations sites, and Steele Creek Public meetings.
- Utilize the current GIS data on farmland to encourage preservation, policies, and economic development. Examples may be complete interactive development of the GIS mapping system with Kitsap County, and utilization of the system for Category 3 projects and rain garden program development.
- Market the Rain Garden and Stream Team Programs to encourage community participation utilizing partners at CWK;

**Goal(s): Maintain District Operations at optimum level of efficiency**

**Funding Source(s): Kitsap County, Liberty Bay, WSCC, City of Bainbridge Island, Kitsap Public Health District; DOE**
