SECTION 1: FUNDAMENTALS

A. Purpose – WAC 135-110-100

These procedures exist to assist conservation districts and conservation district supervisors in the election, appointment, and replacement of supervisors in the State of Washington, and to assure fair treatment of all parties involved in such proceedings, and to provide guidance for compliance with the Washington Administrative Code (WAC), Chapter 135-110.

B. Authority – WAC 135-110-100

2. The Conservation Commission is tasked in RCW 89.08.160 with appointing two supervisors who are qualified by training and experience to serve as conservation district supervisors.

3. Conservation district supervisors are required by RCW 89.08.190 to conduct conservation district elections annually. Such elections must comply with these procedures.

4. If any provision in these procedures or its application to any person or circumstance is held invalid, the remainder of these procedures or the application of the provision to other persons or circumstances is not affected.

5. In circumstances where these rules and/or procedures are silent or in conflict, the Commission will look to general election law (RCW Chapter 29A) rules and procedures for guidance.

C. Failure to comply with these procedures – WAC 135-110-120

1. In the event these procedures are not substantially followed, the Conservation Commission may make a determination of significant noncompliance. Significant noncompliance consists of failures to follow these procedures that, in the sole judgment of the Conservation Commission, may (1) affect the outcome of an election; (2) affect the appointment of a supervisor; or (3) deny voters their right of privacy in voting. If a determination of significant noncompliance is made, the Conservation Commission may choose not to certify the election or make the appointment.

2. If the Conservation Commission chooses not to certify an election, the conservation district must seek judicial review of the election in Superior Court.

3. For appointment applications found to be significantly noncompliant, the conservation district or applicant must correct all deficiencies on the application. The applicant and conservation district

must comply with these procedures before the Conservation Commission will act on an application for appointment to the position of conservation district supervisor.

D. Disruptions prohibited – **WAC 135-110-180**

1. Behavior that disrupts or interferes with the election or appointment of conservation district supervisors shall not be tolerated. A conservation district supervisor, a polling officer, or the election supervisor may require disruptive persons to leave the premises. Such disruptive persons may be asked to keep a distance of at least 300 feet away from the polling place. Law enforcement officers may be called to assist in removing persons found to be disrupting or interfering with election or appointment processes.

E. General requirements

1. Each year, either during the last quarter of the calendar year preceding an election or immediately in January or February of the year in which the election will be held, each conservation district Board of Supervisors must adopt a resolution setting an election date within the first quarter of the year in which the election will be held. **WAC 135-110-210.** The date the Board of Supervisors chooses to hold the election will determine when the resolution must be adopted. **WAC 135-110-220.** Each conservation district Board of Supervisors must also appoint one election supervisor to organize, coordinate, and perform functions required of the conservation district in the election and appointment of conservation district supervisors. **WAC 135-110-230.** This information, plus a list of conservation district supervisor positions expiring in the year of the election, must be posted conspicuously in the conservation district office.

2. Due notice in print media, as defined in these procedures, must be provided for every full-term conservation district election and every full-term conservation district appointment process. **WAC 135-110-220** and **WAC 135-110-110.** Notices for both processes may be combined if the conservation district so chooses. Conservation districts are strongly encouraged to exceed the minimum due notice requirements to reach the maximum number of potential candidates and voters.

3. For poll site elections, the conservation district Board of Supervisors must specify the location(s) for polling and the hours in which polling will occur. **WAC 135-110-210(2)b.** Every poll site must be open for at least four hours at a time convenient for voters. **WAC 135-110-240(2).** Every poll site must have at least two polling officers present during the hours the polls are open. **WAC 135-110-240(2) and WAC 135-110-620.** However, if the incumbent is automatically reelected, then no other election activities at physical poll sites or through remote election processes may be performed. **WAC 135-110-370.** Polling places selected must have sufficient parking to accommodate the
expected number of voters. Polling places must be accessible to voters. WAC 135-110-250 and WAC 135-110-580. If the election will be held only by mail, the date set by the conservation district is the end date for receiving ballots from voters, and the location will be where ballots are counted. It is a good practice, however, to specify in the election notice to voters when the last day, time, and location mailed ballots may be received.

4. Every candidate in a conservation district election must be a qualified district elector. WAC 135-110-300. A qualified district elector is a registered voter residing within the boundary of the conservation district where the candidate wishes to serve. In addition, some positions may be required to own land or operate a farm to be eligible. WAC 135-110-310.

5. The filing deadline for candidates is four weeks before election day, unless, by formal action, the conservation district supervisors choose a filing deadline greater than four weeks before election day. WAC 135-110-330. A conservation district may not make the filing deadline less than four weeks, but may make the deadline more than four weeks, by formal action of the conservation district board of supervisors. WAC 135-110-330.

6. There are three types of candidates: (1) declared, (2) declared nominated, and (3) undeclared write-in candidates. WAC 135-110-350. Both declared and declared nominated candidates require the filing of candidate information with the conservation district by the filing deadline. WAC 135-110-350. In addition, a candidate wishing to have his or her name placed on the official ballot must submit to the conservation district a nominating petition signed by at least 25 nominators by the filing deadline. WAC 135-110-340. A candidate who submits a nominating petition on time, but without at least 25 nominators, will be considered a declared candidate. WAC 135-110-350(1).

7. An individual who does not file candidate information with the conservation district by the filing deadline is not eligible to be elected. WAC 135-110-320 and WAC 135-110-355.

8. Every physical poll site must have at least two polling officers present during the hours polls are open. WAC 135-110-240. The election supervisor may serve as a polling officer at one poll site. WAC 135-110-470. The conservation district must provide at least two polling officers at each poll site, except the election supervisor may substitute for one polling officer at one poll site. WAC 135-110-620. A conservation district supervisor, employee or municipal officer may not serve as a polling officer in the conservation district election, unless the person is the election supervisor appointed by the conservation district supervisors. WAC 135-110-440. While there is no prohibition against a relative or spouse serving as a polling officer, it is important to keep in mind WAC 135-110-150 which says that conservation districts, employees and supervisors must remain impartial during an election. Further, with WAC 135-110-150 in mind, there is no prohibition against a conservation
district supervisor, employee or municipal officer from serving as a polling officer in another districts’
election.

9. Every individual requesting a ballot for any conservation district election must be verified as a
qualified district elector before a ballot is counted. **WAC 135-110-610**. This applies to poll-site
elections and to mail-in elections.

10. At a poll-site election, a contested ballot must be issued if the voter’s eligibility to vote cannot be
determined during polling and the individual wishes to vote. **WAC 135-110-610**.

11. All ballots or computer voting records must be retained by the conservation district for twelve
months after the election has been certified, at which time they may be destroyed, unless the
election has not been certified by the Conservation Commission or the election has been challenged.
**WAC 135-110-140**.

12. All election forms and documents submitted to the Conservation Commission must be copies. **WAC
135-110-130**. Conservation Districts must retain the original version of all election forms until ballots
may be discarded. **WAC 135-110-130**. The Conservation Commission may inspect original
documents. **WAC 135-110-130**.

13. An employee or municipal officer of a conservation district holding an election may assist in election-
related activities, but may not serve as a polling officer in the conservation district where they are
employed, unless the employee or municipal officer is the election supervisor appointed by the
conservation district board of supervisors. **WAC 135-110-440**.

14. An applicant or candidate must be eligible to serve at the time of application or filing for the office of
conservation district supervisor. If, during the term of office, the individual no longer meets the
eligibility requirements to hold that office, the office is deemed to be vacant. **WAC 135-110-910** and
**WAC 135-110-930**.

15. Elections are final when certified and the official results are announced by the Conservation
Commission in May of each year or later as deemed necessary by the Commission. **WAC 135-110-
770**. A supervisor-elect takes office and can begin official duties as a board supervisor when the
election is final, which is after the May Commission meeting. **RCW 89.08.190** says that “The
commission shall establish procedures for elections, canvass the returns and announce the official
results thereof. Election results may be announced by polling officials at the close of the election
subject to official canvass of ballots by the commission. Supervisors elected shall take office at the
first board meeting following the election.” **WAC 135-110-770(1)** says that “elections are final when
certified by the conservation commission and the official results are announced by the conservation
commission in May of each year or later as deemed necessary.” Read together, the RCW and WAC
are linked. The phrase “following the election” in the RCW is linked to the initial phrase “the commission shall establish procedures for elections...” which is linked to the meaning of “final” for election purposes in WAC 135-110-770(1). Elections are final when they are “certified by the conservation commission and the official results are announced by the conservation commission in May of each year or later as deemed necessary.” Therefore, a supervisor-elect takes office and can begin official duties as board supervisor when the election is final, which is after the May Commission meeting.

A. Information standards

1. Notice of the Intent to Adopt an Election Resolution. A notice of the intent to adopt an election resolution must be published twice, at least six days between each publishing, before the meeting to adopt the Election Resolution can be held. The purpose of this Notice is to inform the public that the District intends to have a meeting at which the date, time, place and manner of the election will be set. **WAC 135-110-220**. Districts may publish their adopted election resolution, and all subsequent election notices, on a Districts’ web site. Districts who choose this option are required to publish the **Notice of the Intent to Adopt an Election Resolution** as usual (twice, at least a week apart, in a newspaper) accompanied by a clear statement in that notice that future election information will be posted only on the districts’ web site. Once that is accomplished, districts may then publish any further election notices or materials on their web site.

2. Election resolution. The information in the election resolution must be provided to the Conservation Commission on or before the candidate filing deadline. This is accomplished by filing out form **EF1-CD Election Information**, available on the Commission’s elections web page at **http://scc.wa.gov/elections-and-appointments/**. **WAC 135-110-210(3)**. Verification of eligibility for each candidate will be documented when the District submits EF2 – Election Report.

8. Ballot results report. Polling officers and the election supervisor should use Checklist 3 - Ballot Results to record ballot results for each polling location. Total ballot results for all polling locations will be documented when the District submits EF2 – Election Report. WAC 135-110-750. Conservation districts and polling officers must record the following information on Checklist 3:

   a) The name of the conservation district. WAC 135-110-750(3)a.
   b) The location of the poll site. WAC 135-110-750(3)b.

C. Conservation Commission duties

1. General
   a) The Conservation Commission may request copies of documents and inspect original documents and records.

2. Before elections
   a) The Conservation Commission must make these procedures available for stakeholder review and comment.
b) The Conservation Commission must notify all conservation districts of supervisor terms of office due to expire. Notice must be provided to conservation districts by October 1 in the year preceding elections.

c) These procedures become effective on the date they were last revised.

d) The Conservation Commission may amend these procedures at any time to assure the fair, proper, and orderly election and appointment of conservation district supervisors.

3. During a poll-site election
a) Conservation Commission board members and/or employees may monitor conservation district elections without notice.

4. After the polls close
a) The Conservation Commission will canvass the returns of conservation district elections to verify election results and to determine if the election was properly conducted according to the requirements in these procedures.

b) The Conservation Commission board will certify all conservation district elections found to substantially comply with the requirements in these procedures.

c) The Conservation Commission will announce the official election results, or decline to announce official results, for each conservation district election after the elections have been certified.

d) The Conservation Commission will act on elections for full-term positions annually at its regular meeting on the third Thursday in May or as necessary thereafter.

D. Conservation District duties

1. General
a) A conservation district must hold an election each year.

b) A copy of these procedures must be made available for public inspection at each poll site.

2. Before an election
a) Each conservation district must publish a Notice of the Intent to Adopt an Election Resolution. The purpose of this notice is to inform the public that the District intends to have a meeting at which the date, time, place and manner of the election will be set. This Notice must be published twice, at least six days between each publishing, before the meeting to adopt the Election Resolution can be held. Examples of this Notice can be found in Appendix B – Due Notice Compliance Notice Examples.

b) Each conservation district must hold a meeting after the Notice of the Intent to Adopt an Election Resolution has been properly published. The purpose of this meeting is to adopt an Election
Resolution. An example of an Election Resolution can be found in Appendix D - Sample Election Resolution.

c) Each conservation district must publish a Notice of the Adopted Election Resolution. The purpose of this Notice is to inform the public, voters and potential candidates of the date, time, place and manner of the election. This Notice must be published twice, at least six days between each publishing, before the candidate filing deadline. The Notice must set election date(s), location(s), and polling times by resolution and that information must be communicated to the Conservation Commission by the candidate filing deadline. Examples of this Notice can be found in Appendix B – Due Notice Compliance Notice Examples.

i) Each polling place must be open for at least four hours at a time convenient for voters in that district. Two polling officers must be present.

ii) Polling places must have sufficient parking to accommodate the expected number of voters.

iii) Polling places must be accessible to those with disabilities.

iv) The election date must be in the first three calendar months of the election year.

v) If the election will be held by mail, the date set by the conservation district is the last date ballots may be received from voters. The location will be where ballots are counted. If necessary to accommodate voter(s) pursuant to WAC 135-110-250, a district conducting a mail-in election may be required to provide at least one polling place where voters can deliver their completed ballots or vote as in a poll-site election.

vi) The last date voters can request absentee ballots must be set in the Notice.

d) Each conservation district must appoint an election supervisor.

i) The election supervisor may be a conservation district supervisor, conservation district employee, or any other person appointed by the conservation district board of supervisors.

ii) The election supervisor serves as the primary point of contact between the conservation district and the Conservation Commission for all functions to be performed by the conservation district in the election and appointment of conservation district supervisors.

iii) The election supervisor organizes, coordinates, and facilitates election-related activities of the conservation district related to the election and appointment of conservation district supervisors. The election supervisor assures that required documentation is properly completed and transmitted on time to the Conservation Commission. The election supervisor may also serve as a polling officer.

iv) Conservation district supervisors remain responsible for conducting the election and for complying with these published requirements and procedures.
e) For each candidate, the election supervisor must verify that specific eligibility requirements have been met and, for declared nominated candidates, direct whether or not to place the name of the candidate on the ballot. This is done using Checklist 1 - District Verification of Candidate and Eligibility for the Office of Elected Supervisor.

i) For each declared nominated candidate, a conservation district must:

(1) Verify that candidate information was received by the filing deadline.

(2) Verify that the nominating petition was received by the filing deadline.

(3) Verify that at least 25 qualified district electors signed the nominating petition.

(4) Determine whether the candidate is a qualified district elector.

(5) Determine whether the composition of the conservation district board will meet statutory requirements if the candidate is elected.

(6) If requirements one through five above are met, the conservation district must direct that the name of the candidate be placed on the ballot.

ii) For each declared candidate, a conservation district must:

(1) Verify that candidate information was received by the filing deadline.

(2) Determine whether the candidate is a qualified district elector.

(3) Determine whether the composition of the conservation district board will meet statutory requirements if the candidate is elected.

iii) For each undeclared write-in candidate, a conservation district must:

(1) Verify that candidate information is received within four weeks (twenty-eight calendar days) following the first date of election.

(2) Determine whether the candidate is a qualified district elector.

(3) Determine whether the composition of the conservation district board will meet statutory requirements if the candidate is elected.

iv) Such determinations must be made separately for each candidate.

v) A county auditor or the Conservation Commission may assist a conservation district in determining the eligibility of a candidate, upon request of the conservation district.

f) The conservation district must verify the eligibility of individuals wishing to serve, or continue to serve, as an elected conservation district supervisor.

g) The conservation district must provide due notice of the election to potential voters.

i) The conservation district must publish at least two notices as defined in “due notice” and “print media.” Conservation districts are strongly encouraged to exceed the minimum
requirements for due notice. Due notice is defined in WAC 135-110-110 and explained in WAC 135-110-220. Examples of this Notice can be found in Appendix B – Due Notice Compliance Notice Examples.

ii) There are two types of election notices:

(1) Notice of the Intent to Adopt an Election Resolution: the purpose of this notice is to inform the public that the District intends to have a meeting at which the date, time, place and manner of the election will be set. This Notice must be published twice, at least six days between each publishing, before the meeting to adopt the Election Resolution can be held.

(2) Notice of the Adopted Election Resolution: the purpose of this Notice is to inform the public, voters and potential candidates of the date, time, place and manner of the election.

iii) The Adopted Election Resolution Notice must contain, at minimum, the following information:

(1) The name of the conservation district.

(2) The election method[s] selected for the election.

(3) The date(s), location(s), and times polls open and close.

(4) That candidates must be registered voters who reside in the conservation district.

(5) That candidates may be required to be landowners or operators of a farm, depending on the current composition of the conservation district board of supervisors.

(6) The filing deadline for candidates.

(7) The last day on which voters can request absentee ballots from the district.

(8) That eligible voters are registered voters who reside in the conservation district.

(9) That a conservation district supervisor is a public official who serves without compensation and who sets policy and direction for the conservation district.

(10) That published election procedures can be viewed at the conservation district office and are available from the Washington State Conservation Commission.

iv) If the election is also to be held by mail, the Election notice must describe how to obtain a ballot and the deadline for returning ballots.

v) For appointed position notices, refer to Section 3.D.2 of these procedures. Notice examples can be found in Appendix B – Due Notice Compliance Notice Examples.

vi) The Election notice and notice of appointed positions may be combined.
vii) Conservation districts are strongly encouraged to exceed the minimum due notice requirements so that interested parties may be informed of the opportunity to serve as a conservation district supervisor.

h) The conservation district must determine the number of polling officers.

i) The conservation district must provide at least two polling officers at each poll site, except the election supervisor may substitute for one polling officer at one poll site.

ii) If due notice of the election resolution and the election have been duly published by the conservation district, and the only person filing by the filing deadline is the incumbent, and the conservation district verifies the continued eligibility of the incumbent to serve another term of office, and the incumbent has not resigned on or before the last date of election, then the incumbent is automatically reelected. When an incumbent is automatically reelected, no other election activities at physical poll sites or through remote election processes may be performed, provided that, before election day, the conservation district has informed the voting public that the incumbent has been reelected by reason of being the only person filing for the position, and that no poll site, mail, or absentee balloting will be performed, and on election day, signs containing this information must have been posted at poll sites. Within four weeks of the first date of election as scheduled in the election resolution, the conservation district must inform the Conservation Commission of the automatic reelection of the incumbent. Refer to Section 2.J “Non-standard Election Outcomes” in these procedures for additional information.

i) If a candidate is found by the conservation district to be ineligible, the conservation district must inform the candidate of the reasons. The conservation district may not print that candidate’s name on the official ballot. If the reason is the lack of sufficient nominators on the nominating petition, the candidate must be considered a declared write-in candidate and the candidate must be so informed by the conservation district.

j) To assist voters in the selection of a candidate during voting, a conservation district may publish information provided by nominated and declared candidates. Conservation districts should adopt a policy to set the parameters for publishing such information. A sample template is in Appendix C – Sample Candidate Information Template.

i) If a conservation district chooses to publish information about candidates, it must provide equal opportunity for publication and equivalent space to each nominated and declared write-in candidate.

ii) A conservation district must not take an official position on any candidate that promotes, or is prejudicial to, a candidate, nor may supervisors or employees of the conservation district do so in their official capacity.

iii) On election day, information provided by candidates may not be provided to voters within 300 feet of the poll site.
A conservation district must create a ballot and provide a ballot to each person who wishes to vote in the conservation district election. See form PF-D.

i) The ballot must list the names of all candidates ordered to be placed on the ballot. Names on the ballot must be listed in alphabetical order by last name, from top to bottom. Example: Jane Adams would be listed above John Doe.

ii) The ballot must contain at least one blank line where a voter can enter the name of a undeclared write-in candidate.

iii) One empty checkbox or blank space should be provided next to each candidate’s name printed on the ballot.

iv) During a poll-site election, the conservation district must provide a contested ballot to any individual wishing to vote who cannot be verified as eligible to vote prior to the issuance of a ballot. A double-envelope system consisting of two envelopes and a ballot must be used for all contested ballots.

v) For electronic voting, the functional equivalent of a paper ballot must be utilized.

vi) A conservation district may send or provide ballots to all individuals who, in the three years preceding the election, have voted in a conservation district election or have participated in conservation district services or programs. WAC 135-110-515(4). However, if a conservation district provides unrequested ballots to a population that is less than all the eligible voters within the conservation district boundary, the conservation district must not use lists obtained from an individual conservation district supervisor or employee, nor from any candidate, nor from any trade, company, church, union, fraternal or other organization. WAC 135-110-420. So long as a list generated by a conservation district pursuant to WAC 135-110-515(4) includes all such individuals, such a list is exempt from WAC 135-110-420.

vii) Absentee ballots must be provided to eligible voters upon request, and voters need not provide proof of any special condition to obtain an absentee ballot. WAC 135-110-520. Also, the conservation district must provide a ballot to any person who requests a ballot. WAC 135-110-515. An eligible voter should declare their eligibility to the district before a request for an absentee ballot can be fulfilled by the district. The declaration by the voter can be done in writing, electronically, or orally. A request for an absentee ballot can be made in person, in writing, by telephone, or electronically, by the voter, a family member, or a registered domestic partner. Only one absentee ballot request per voter can be made. Multiple absentee ballots can be sent to the same address, provided that each absentee ballot can be matched to a request by a voter at that address. Sample absentee ballot instructions and a request form are provided in Appendix A - Sample Absentee Ballot.

l) The conservation district must obtain a current list of registered voters from the County Auditor or Secretary of State for all territory within the conservation district boundary.
m) The conservation district must be able to show or describe the legal boundary of the conservation district to any voter or to any representative of the Conservation Commission, upon demand.

n) Campaigning is not the same as recruiting candidates. Conservation district staff and supervisors may recruit candidates to serve on the conservation district board in either elected or appointed positions. Candidates for elected positions can come from any segment of society, provided they are qualified district electors and otherwise eligible to serve on the conservation district board. Candidates for appointed positions can come from any segment of society, provided they are registered voters in Washington State and otherwise eligible to serve on the conservation district board. While conservation district supervisors and staff may recruit candidates to serve on the conservation district board, they must not take an official position on an active candidate for an elected position, as per WAC 135-110-150. An active candidate is someone who has submitted PF-A to the conservation district in the current election. Sample Candidate Recruitment Policy:

Conservation districts are free to set policies related to the recruitment of candidates for conservation district elected and appointed positions, provided those polices are not in violation of the Commission’s election and appointment policies and procedures. Below is an example of a policy that could be used related to the recruitment of candidates.

Conservation district staff and supervisors may recruit candidates to serve on the conservation district board in either an elected or appointed positions. Campaigning is not the same as recruiting candidates.

Conservation district staff may distribute informational materials related to their upcoming election, during the normal course of their work duties, provided they do not violate election policy and WAC 135-110-150.

Conservation district supervisors should seek opportunities to recruit candidates to serve on the conservation district board in either an elected or appointed positions, provided that they do not violate election policy and WAC 135-110-150.

3. Before a mail-in (or remote) election

a) A conservation district holding a mail-in election must appoint an election supervisor and have declared at least one poll site.

b) Double-envelope voting (or the secure electronic equivalent) is required for mail-in/remote elections.

i) A double-envelope system meeting the requirements for contested balloting must be used by the conservation district in the mail-in election.

ii) Provision must be made for the outer envelope to show or contain sufficient information to identify the voter. The voter should print his or her name and address as registered with the County Auditor.
c) Due notice to voters must provide sufficient time for voters to obtain and return ballots to the conservation district. Allowing at least one week after the second required notice has been published is recommended.

d) Ballots must be offered to potential voters within the conservation district boundary. To receive a ballot, the voter must request a ballot prior to the current election, unless a district is utilizing WAC 135-110-515(4) (see Section 2(D)2(k)vi above). The election supervisor must verify the voter is a qualified district elector before the ballot is counted.

4. Immediately after the candidate filing deadline

a) The District should verify the eligibility of each candidate to appear on the ballot and serve as a conservation district supervisor. This can be done using Checklist 1 - District Verification of Candidate and Eligibility for the Office of Elected Supervisor.

b) If only the incumbent filed PF-A and PF-B by the candidate filing deadline, the District should determine if it will be automatically re-electing the incumbent through WAC 135-110-370. This can be done using Checklist 2 – Automatically Re-electing an Incumbent.

5. During a poll-site election

a) Conservation district supervisors or staff may assist polling officers, but may not directly issue ballots or count ballots, unless such person is also the election supervisor appointed by the conservation district board of supervisors.

b) Each poll site must have a ballot box, signage, and be accessible to voters.

   i) Each poll site must have at least one ballot box.

   ii) Each poll site must be conspicuously identified to voters as the place to vote.

   iii) Poll sites must not create undue hardship for disabled voters.

   iv) Polling places must be open for a minimum of four hours at a time convenient for voters in that district.

   c) The conservation district must provide polling officers at each poll site.

      i) Polling officers must be independent third parties who are not supervisors, employees, or municipal officers of the conservation district holding the election. Further, with WAC 135-110-150 in mind, there is no prohibition against a conservation district supervisor, employee or municipal officer from serving as a polling officer in another districts’ election. A conservation district supervisor, employee or municipal officer may not serve as a polling officer in the conservation district election, unless the person is the election supervisor appointed by the conservation district supervisors. WAC 135-110-440. While there is no prohibition against a relative or spouse serving as a polling officer, it is important to keep in mind WAC 135-110-150 which says that conservation districts, employees and supervisors must remain impartial during an election. Therefore, it is recommended that polling officers
not be immediate family members or live in the same household of such supervisors, employees, or municipal officers.

ii) The election supervisor appointed by the conservation district may serve as a polling officer at one poll site, even if he or she is a supervisor, employee, or municipal officer of the conservation district holding the election. An election supervisor who also serves as a polling officer has all of the responsibilities and duties listed in Section 2.F.

iii) The conservation district must provide at least two polling officers at each poll site, except the election supervisor may substitute for one polling officer at one poll site.

iv) Individuals hired temporarily to serve as polling officers are not considered employees for the purposes of this section.

v) Before the polls open, the conservation district must review with polling officers the procedures for verifying voters, issuing ballots, issuing contested ballots, and tallying and recording election results.

d) Conservation districts must assure privacy in voting.

  i) The ballot choice made by a voter must not be seen by any other person during the act of voting or the placing of the ballot in the ballot box.

  ii) Paper ballots must be placed into ballot boxes. Electronic ballots must assure at least the same level of security and privacy as provided by paper balloting.

e) The conservation district must not post the names of nominated and declared write-in candidates at the polls. It is the responsibility of candidates to inform the voting public of their candidacy for the office of conservation district supervisor.

f) The name of a nominated candidate or declared write-in candidate who has submitted a withdrawal of candidacy in writing to the conservation district may not be posted at the polling place. It is the responsibility of candidates to inform the voting public of their status in seeking the office of conservation district supervisor.

5. After the polls close

a) One or more conservation district supervisors, or the election supervisor, must receive from polling officers the following:

  i) All poll list pages;

  ii) All ballots;

  iii) A completed Checklist 3 - Ballot Results for each polling site, absentee ballots and for each type of election held (poll-site or mail-in); and

  iv) All working papers and notes made by polling officers.
b) When polling officers have transferred all properly completed forms and documents, and all ballots, to a conservation district supervisor or the election supervisor, the polling officers may be excused from their official duty.

c) The conservation district must transmit to the Conservation Commission information sufficient for the Commission to certify and announce the election result within four weeks of election day. This is done when the District submits EF2 – Election Report.

d) The conservation district must retain all original forms, documents, and ballots for 12 months after the election has been certified, at which time they may be destroyed unless the election has not been certified or the election has been contested to the Commission. Conservation districts must abide by Local Government Common Records Retention Schedule (CORE).

E. Election Supervisor duties

1. Before an election

   a) Confirm that the election resolution has been provided to the Conservation Commission by the candidate filing deadline.

   b) Confirm due notice requirements have been satisfied.

   c) Confirm two polling officers will be present at each poll site. One polling officer and the election supervisor may substitute for the two polling officer requirement at one poll site.

   d) Prepare polling officers to perform the tasks required of them by reviewing these procedures, the poll list form, the ballot results form, and contested balloting, and confirm all required resources are available at each polling place.

   e) Provide absentee ballots upon request; provide absentee ballot information (instructions, deadlines, etc) to voters (see Appendix A - Sample Absentee Ballot); and abide by the double-envelope system for absentee ballots.
Election and Appointment Procedures
For Conservation District Supervisors

2. Immediately after the candidate filing deadline
   a) The election supervisor should verify the eligibility of each candidate to appear on the ballot and serve as a conservation district supervisor. This can be done using Checklist 1 - District Verification of Candidate and Eligibility for the Office of Elected Supervisor.
   b) If only the incumbent filed PF-A and PF-B by the candidate filing deadline, the election supervisor should determine if it will be automatically re-electing the incumbent through WAC 135-110-370. This can be done using Checklist 2 – Automatically Re-electing an Incumbent.

3. During a poll-site election
   a) A conservation district supervisor or the election supervisor appointed by the conservation district board of supervisors may extend the time polls are open, if needed to accommodate voters or if needed to obtain additional ballots.
   b) The election supervisor may assist polling officers but may not issue ballots in a poll-site election, unless the election supervisor is serving as a polling officer as described in Section D.2.b. Ballots remain in the custody of polling officers at all times during a poll-site election.
   c) An election supervisor who also serves as a polling officer has all of the responsibilities and duties listed in Section 2.F.

4. After the polls close
   a) The election supervisor may assist polling officers, but may not count ballots, unless the election supervisor is serving as a polling officer as described in Section D.2.b.
   b) One or more conservation district supervisors, conservation district employees, Conservation Commission representatives, or members of the public may observe the handling of ballots and the counting of votes, but may not interfere or disrupt the proceedings in any way.

5. During a mail-in election and / or for absentee ballots
   a) The election supervisor receives and safeguards mail-in or absentee ballots returned by voters.
      i) The election supervisor performs all the tasks as for a poll-site election, and determines if mail-in ballots and / or for absentee ballots are cast by qualified district electors.
      ii) The election supervisor does not count ballots. Polling officers count the ballots.
   b) Double-envelope voting is required for mail-in and / or for absentee ballots elections.
      i) A double-envelope system identical to contested balloting must be used by the conservation district in a mail-in election and for absentee ballots.
      ii) Ballots are to be inserted in an inner envelope and sealed, with no marks or other information that would identify the person voting. The outer envelope should show or
contain sufficient information to identify the voter. The name and address of the voter, as shown on the list of registered voters obtained from the County Auditor, is recommended.

iii) Mail-in and absentee ballots are to be delivered to the election supervisor.

c) The election supervisor determines if mail-in and absentee ballots votes are submitted by qualified district electors.

i) As ballots are received from voters, the election supervisor may verify each mail-in and absentee ballot as eligible or disqualified based on the information provided on or in the outer envelope of the mail-in or absentee ballot. Alternatively, the election supervisor may wait until all ballots are received, at which time the eligibility of each voter must be verified before outer envelopes are opened.

ii) When a voter cannot be verified as eligible to vote in this election from information provided on the outer envelope, the outer envelope should be opened. If, after opening the outer envelope, a voter still cannot be verified as eligible to vote in this election, the ballot must be counted as a disqualified ballot.

iii) The election supervisor may enlist the help of polling officers in verifying mail-in and absentee ballots as eligible or disqualified.

iv) The election supervisor must not open the inner envelope containing the actual ballot. Polling officers must open and count each ballot that has been verified as having been cast by a qualified district elector.

v) The inner envelope for each mail-in or absentee ballot found to be cast by a person who is not a qualified district elector must not be opened. However, if it cannot otherwise be determined from an examination of the outer envelope or its contents whether the voter is a qualified district elector, the polling officers may open the inner envelope. If, after opening the inner envelope, a voter still cannot be verified as eligible to vote in the election, the ballot must be counted as a disqualified ballot.

F. Polling Officer duties

1. Before an election

a) Review contested ballots: what they are, when they are issued, and how they are counted.

b) Review the poll list form and Checklist 3 - Ballot Results, and how to complete them.

c) Confirm these resources are available at each poll site:

i) Sufficient ballots for the expected number of voters;

ii) A reasonable supply of contested ballots (double-envelope system);

iii) A ballot box;
iv) Voting booth or other means of assuring votes can be cast privately;
v) A list of registered voters (voter list);
vi) A map or description of the conservation district legal boundary;
vii) A copy of these procedures; and
viii) Poll list forms and Checklist 3 - Ballot Results.

2. During a poll-site election
a) Polling officers must monitor the voting place for compliance with these procedures, and also
   serve as guardians of all issued and unissued ballots.
b) Polling officers verify voters and issue ballots.
   i) A polling officer must verify a voter is a qualified district elector before issuing a ballot to the
      voter and record that determination on the poll list.
   ii) At least one polling officer must be present and in control of the ballot box(es) at all times
       while the polls are open.
   iii) At a poll-site election, a contested ballot must be issued if the voter’s eligibility to vote
       cannot be determined during polling. A voter whose eligibility cannot be determined may
       only vote on a contested ballot. Contested balloting should be explained to the voter.
       Following is an example dialog:

       At this time, I cannot verify you are a qualified district elector eligible to vote in this
       election. For your vote to be counted, you must be a registered voter living inside the
       boundary of the conservation district.

       Every vote is important, so if you wish to vote, I will issue you a contested ballot so that
       you can vote. Election officials will determine your eligibility to vote after the polls are
       closed and count all ballots.

       The contested ballot is a package consisting of a ballot and two envelopes. After you mark
       the ballot, place it inside one envelope and seal that envelope. Do not make any
       identifying marks on that envelope. Place the sealed envelope inside the second envelope.

       On the outside of the second envelope, print your name and address as used by the
       County Auditor for your voter registration record, then place the completed contested
       ballot package in the ballot box.

   iv) Polling officers use the poll list to track the identity and number of voters, to identify
       determinations made by polling officers as to voter eligibility, and to identify voters issued
       contested ballots.
v) For absentee ballots received during a poll-site election, polling officer should follow the procedure, as directed by the Election Supervisor, set out in Section E(4) Election Supervisor Duties above.

c) Polling officers are to close the polls at the published time, unless the polls are extended by a conservation district supervisor or the election supervisor.

i) Those who are waiting in line when the polls are scheduled to be closed must be allowed to check in and vote.

ii) Poll times may not be less than advertised.

iii) A conservation district supervisor or the election supervisor appointed by the board may extend the time polls are open, if needed to accommodate voters.

3. After the polls close

a) Polling officers open the ballot box or boxes and count the votes cast for each candidate.

i) If the election had more than one polling place, polling officers may transport uncounted ballots in the ballot boxes to a central location for counting.

ii) Ballots must remain in the custody of polling officers until counted. Polling officers count all votes cast. Absentee ballots should be tallied separately from poll-site ballots.

iii) All votes must be counted, including eligible votes and disqualified votes.

iv) A vote on a contested ballot where the voter is found to be ineligible to vote is to be counted as a disqualified vote.

v) Written marks made on a ballot for a write-in candidate shall be governed by the same standards as set out in WAC 434-261-086.

vi) When verifying a voter who cast a contested ballot, compare the name and address provided by the voter with the voter list obtained from the County Auditor or Secretary of State.

vii) The ballot count results are recorded on Checklist 3 - Ballot Results, which is to be provided by a polling officer to the election supervisor.

b) Record a Checklist 3 - Ballot Results for each type and location of election held (poll-site and mail-in), and for absentee ballots (if any were received) to a conservation district supervisor or the election supervisor.

c) Surrender all poll list documents, all ballots, all working notes and papers, and all Checklist 3 - Ballot Results to the election supervisor.

d) Polling officers may announce the unofficial results of the election, subject to certification by the Conservation Commission.
4. During a mail-in election
   a) Polling officers receive each ballot from the election supervisor.
      i) Each ballot should be sealed inside an envelope.
      ii) Only one ballot may be in an envelope. If more than one ballot is found inside a single envelope, all such ballots must be disqualified.
      iii) A ballot in an unsealed inner envelope may be disqualified.
   b) Polling officers count votes and verify the ballot count in writing.
      i) All votes must be counted: eligible, and disqualified. There are no contested ballots in a mail-in election.
      ii) Written marks made on a ballot for a write-in candidate shall be governed by the same standards as set out in WAC 434-261-086.
      iii) Ballot counts are recorded on Checklist 3 - Ballot Results and reported in total on EF2.
   c) If the conservation district holds a poll-site election and a mail-in election, polling officers must count and record ballots separately for each type of election and for absentee ballots (if any were received) and for each poll location. This means a separate Checklist 3 - Ballot Results must be completed for each type of election, absentee ballots, and location of election.

G. Candidate duties

1. Before an election
   a) Any person wishing to be a candidate must file candidate information (PF-A) with the conservation district by the candidate filing deadline.
   b) A candidate wishing to have his or her name pre-printed on the official ballot must provide a qualified nominating petition (PF-B) signed by at least 25 qualified district electors to the conservation district by the candidate filing deadline. Use as many pages of PF-B as needed to achieve the 25 qualified district electors. The election supervisor will verify nominators on the nominating petition.
   c) If the incumbent on the conservation district board who currently holds the elected office subject to the current years’ election provides candidate information (PF-A) by the candidate filing deadline, the incumbent will be eligible to be re-elected. However, under WAC 135-110-340, unless the incumbent obtains the 25 qualified nominating signatures (PF-B), the incumbent’s name will not appear on the ballot. In order for the incumbent’s name to appear on the election ballot, the incumbent must file both PF-A and PF-B by the candidate filing deadline, and PF-B must have at least 25 qualified nominating signatures. Only after an incumbent correctly files both forms with the District will the District place the incumbent’s name on the official ballot. Furthermore, a District wherein an incumbent files only candidate information (PF-A) and not the
25 qualified nominating signatures (PF-B) cannot use \texttt{WAC 135-110-370} to automatically re-elect the incumbent.

d) Should a candidate wish to withdraw his or her candidacy, written notice to that effect must be provided to the conservation district before Election Day. Notice by any other means will be considered invalid. If the candidate is running as a nominated candidate and ballots have already been printed, the conservation district is not obligated to reprint ballots to remove the withdrawn candidate’s name.

e) It is the responsibility of a candidate to inform voters of the candidate’s desire and qualifications to be elected to the office of conservation district supervisor. A conservation district may provide equal opportunity and equivalent space to candidates for this purpose but are not required to do so. Such information must not be provided within 300 feet of polls on Election Day.

f) Every candidate must be eligible to be elected to, and hold the office of, conservation district supervisor on the day of the filing of candidate information with the conservation district.

2. During a poll-site election

   a) Candidates may not seek to influence voters to vote for or against a specific candidate within 300 feet of ballot box(es).

   b) Candidates may observe an election while the polls are open but may not interfere with voters or polling officers.

   c) Candidates may observe the counting of ballots but may not interfere with polling officers or the election supervisor.

3. After the polls close

   a) Candidates may not disrupt or interfere with polling officers.

   b) Candidates may observe the counting of votes.

   c) The supervisor-elect becomes a municipal officer upon certification of the election by the Conservation Commission.

H. Nominator duties

1. Before an election

   a) Persons signing a nominating petition (PF-B) must be registered voters residing within the boundary of the conservation district holding the election.

   b) Information provided on the nominating petition must be legible or it cannot be counted.

   c) Nominators may sign a nominating petition for more than one candidate.

   d) Nominators may only sign a candidate’s nominating petition once.
e) A nominator’s signature is not a vote for the candidate. Signing the nominating petition is a request that the candidate’s name be pre-printed on the official ballot.

I. Voter duties

1. During a poll-site election
   a) No voter may seek to influence any other voters within 300 feet of the ballot box(es).
   b) A voter may observe an election but may not interfere with voters or polling officers.
   c) A voter must sign in on a poll list and provide sufficient information for a polling officer to determine the individual’s eligibility to vote.
   d) Before receiving a ballot, the identity of a voter must be verified by a polling officer. Acceptable forms of voter identification include:
      i) Valid Washington State driver’s license or Valid Washington State identification card; or
      ii) Any other identification allowed for registering to vote by the Auditor of the County where the conservation district is located.
   e) A voter who cannot be confirmed at the polling place as eligible to vote may vote, but only on a contested ballot issued by a polling officer.

2. After the polls close
   a) Voters and other citizens may not disrupt or interfere with polling officers.

J. Non-standard election outcomes

1. Incumbent automatically reelected if no other person files. WAC 135-110-370. To determine if an incumbent is automatically reelected to another three-year term, please use Checklist 2 – Automatically Re-electing an Incumbent.
   a) When all provisions of WAC 135-110-370 are met, a district is required to cancel the election. This can be done with or without formal board action.
      i) Without formal board action: Under WAC 135-110-230, a District Board of Supervisors must appoint an Election Supervisor. That Election Supervisor is empowered by the Board, through WAC 135-110-230, to conduct all operations of the election, including the determination and operation of automatically re-electing the incumbent (provided the terms of WAC 135-110-370 are met). Therefore, the appointed Election Supervisor can proceed to cancel an election provided all the conditions of WAC 135-110-370 are met. Ultimately, as WAC 135-110-230(3) notes, the Board is responsible for the actions of the Election Supervisor.
ii) With formal board action: the board of supervisors may choose to proceed with cancelling an election (provided that all provisions of WAC 135-110-370 are met), by passing a resolution so stating and in compliance with WAC 135-110-370.

2. Undeclared write-in candidate may be elected if no person files. WAC 135-110-360.
   a) If no person has filed by the filing deadline, or if the election supervisor finds ineligible all persons who filed, then only undeclared write-in candidates may be elected.
   i) The undeclared write-in candidate, deemed the unofficial winner, must submit required candidate information to the conservation district, and
   ii) Within four weeks (twenty-eight calendar days) following the first date of election, the election supervisor must verify the eligibility of the unofficial winner to be elected and to serve. This is done using Checklist 1 - District Verification of Candidate and Eligibility for the Office of Elected Supervisor and by filling out EF2.
   iii) If the conservation district is unable to verify eligibility of the unofficial winner within four weeks of the election, the unofficial winner is disqualified. The person receiving the next highest vote count must then submit required candidate information and the conservation district must verify his or her eligibility as described above.
   iv) If the undeclared write-in candidate who is the unofficial winner is found ineligible and no other persons received votes, the Conservation Commission will officially announce another full term of office for the incumbent on the third Thursday in May, but only upon verification by the conservation district of the eligibility of the incumbent to serve in the office of elected conservation district supervisor.
   b) Written marks made on a ballot for a write-in candidate shall be governed by the same standards as set out in WAC 434-261-086.

3. Election results in a tie. WAC 135-110-730.
   a) In the case of two or more eligible candidates receiving the most votes, and each receives an equal number of votes, the conservation district must recount the ballots.
   b) Conservation district supervisors may perform the recount at a regular or special meeting of the conservation district board of supervisors, or may charge polling officers with this duty.
   c) If a tie is verified by the recount, the winner of the election must be determined by drawing of names as provided under RCW 29A.60.221 to ensure the drawing is equitable to all affected candidates.
      i) If no more than two candidates are tied, a coin toss may be used in lieu of drawing names to determine the unofficial winner.
      ii) If more than two candidates are tied, only a drawing of names may be used to determine the unofficial winner.
Election and Appointment Procedures
For Conservation District Supervisors

iii) A representative of the Conservation Commission must be present for any drawing of names or coin toss.

d) The candidate whose name is drawn (or who wins the coin toss) becomes the supervisor-elect.

a) When no eligible candidate is elected, the Conservation Commission will officially announce another full term of office for the incumbent on the third Thursday in May, but only upon verification by the conservation district of the eligibility of the incumbent to serve in the office of elected conservation district supervisor. This is done using Checklist 1 - District Verification of Candidate and Eligibility for the Office of Elected Supervisor and by filling out EF2.

b) If the conservation district determines the incumbent conservation district supervisor is no longer eligible to serve in the office of elected conservation district supervisor, or if the incumbent has resigned, the position is deemed vacant and the conservation district may appoint an eligible successor following the official announcement by the Conservation Commission.

K. Emergencies

1. Emergency relocation or rescheduling of election

   a) A conservation district may not change the date(s) or location(s) of poll sites unless an emergency exists.

   b) A conservation district supervisor or the election supervisor may declare an emergency when adverse conditions may negatively affect the health or safety of voters or the timely return of absentee ballots. Such conditions may include, but are not limited to:

      i) Hazardous weather conditions;

      ii) Damage to roads, buildings, or other infrastructure;

      iii) Chemical spills;

      iv) Fire and smoke; or

      v) Volcanic eruption, earthquake, landslides, mudflows, and floods.

   c) When an emergency is so declared, the conservation district should attempt to inform all conservation district supervisors and candidates listed on the ballot.

   d) When a polling site is changed in response to an emergency, and the election date is not changed, signage sufficient to notify potential voters must be provided to redirect voters to the new polling site(s). Poll times should be extended to allow for additional travel time to the relocated polls.
When the election date is changed in response to an emergency, the conservation district should first seek to provide due notice to inform the public of the change. If due notice is not possible, the conservation district should take reasonable measures to inform the public of the change. Reasonable measures may include, but are not limited to: announcements on local radio or television; posting on web pages; announcements in newspapers; and posting of handbills or flyers.

When one or more polling sites are changed and the date is changed in response to an emergency, the conservation district should perform the actions described above in subparts (d) and (e).

The Conservation Commission must be informed of all emergency changes to poll locations or dates before voting begins.

Appendix C – Sample Candidate Information Template

Background:

WAC 135-110-430 allows a district to publish candidate-provided information (a candidate statement). To assist voters in the selection of a candidate during voting, a conservation district may publish information provided by a nominator or declared write-in candidate. See also this Manual, pgs 20-21. Further, if the district chooses to publish information about candidates, it must provide equal opportunity for publication and equivalent space to each candidate. WAC 135-110-430. The full text of WAC 135-110-430 is below:

Conservation district may publish candidate-provided information.

(1) To assist voters in the selection of a candidate during voting, a conservation district may publish information provided by nominated and declared write-in candidates.

(2) If a conservation district chooses to publish information about candidates, it must provide equal opportunity for publication and equivalent space to each nominated and declared write-in candidate.

(3) Candidate information provided by candidates and published by the conservation district may be mailed or delivered to voters before election day, but may not be provided to voters at poll sites on election day.

Districts who wish to allow candidates to publish candidate statements should consider a number of questions, including:

- How will the statement be published (web site only, posted at the district’s office, other forums)?
- How long will the statement be?
- What information is required in the statement (if any)?
- What information is prohibited in the statement (if any)?
- What happens if there are inaccurate, erroneous, or offensive statements or language in the statement?
- When must the statement be provided by the candidate to the district?
- Will the statement be provided with absentee ballot requests and/or mailed to prospective voters?
- If a candidate wishes to rescind a submitted statement, will the district allow that?
- Who decides if the statement meets the parameters set by the district (i.e. it was submitted on time, it meets the length requirements, etc)?
- Will the statement be edited by the District in any way?
- What procedure would the district use to approve the publication of a candidates’ statement?

Ultimately, it is the responsibility of the candidate to inform voters of the candidate’s desire and qualifications to be elected to the office of conservation district supervisor. Candidates are free to run campaigns as they see fit and can provide voters with any information they choose, so long as they are lawful and otherwise comply with the Revised Code of Washington, Washington Administrative Code, and Commission elections policies and procedures.

It is up to the District to modify the template below so that it meets the District’s current policy:
Sample Candidate Information Template:

Thank you for your interest in running for the office of elected supervisor of the [DISTRICT] Conservation District!

Prior to Election Day, we encourage you to take the opportunity to tell voters about who you are and how you are connected to the District and county. Please keep in mind though, that such information must not be provided within 300 feet of polls on Election Day.

There's another chance to tell voters about yourself – that is when you turn in your candidate information. The candidate information is similar to your biography – it allows you to inform voters of your desire and qualification to be elected to the office of conservation district supervisor.

If all candidates participate by the filing deadline, the District will produce a voter pamphlet with candidate information. The voter pamphlet will be posted as soon as practicable on the District's web page.

Your statement should be no more than 200 words. Statements must be typed. You may submit a photograph of yourself with your statement. Photos must be digital (JPEG or TIFF format), current (within 5 years), head and shoulders only portrait, light colored on plain background. Photos with scenery, flags, or other background settings will not be accepted. Color photos are preferred, black and white is acceptable. Judicial robes, law enforcement or military type uniforms are prohibited. No photo may reveal clothing or insignia suggesting that you hold a public office. Submitted photos become the property of the District.

The statement must be limited to information only about you. The District retains the right to eliminate information for space availability or content appropriateness, at the sole discretion of the District. Once submitted, the District has sole discretion to publish that information as it sees fit, provided that each candidate's statement is treated equally. Inaccurate, erroneous, or offensive statements or language in the candidate information, as determined by the District's delegated Election Supervisor, will result in the non-publication of the candidate statement.

Things to think about when you write your candidate statement:

- Describe your current occupation/employer (suggested).
- Describe your position interest (suggested).
- Describe your education (suggested).
- Information about your family (optional).
- Include a photo of yourself (suggested).

Candidate statements must be returned in the proper format, as outlined above, no later than the candidate filing deadline of [DATE], to the District at [ADDRESS]. As determined by the District, the failure to properly submit the statement will result in the non-publication of the statement. Any issue a candidate has surrounding a candidate's submitted statement must be made in writing [electronic or paper] to the District's Election Supervisor. As the delegated agent of the District, the District's Election Supervisor will resolve the issue as soon as practicable and inform the candidate of the decision in writing [electronic or paper].

Appendix E - Sample Elected Board Positions – Mid-Term Appointments

Purpose: To establish a policy outlining the process and procedures for filling mid-term elected seat vacancies on the Conservation District Board of Supervisors (Board).

Policy: A vacancy in the office of elected conservation district supervisor is filled, by a majority vote of the remaining Conservation District (District) Board Members, for the remainder of the unexpired term, subject to verification of supervisor qualifications by the Conservation Commission (WAC 135-110-970; RCW 42.12.070).

Procedure: Determining Candidate Skills, Qualifications & Requirements

The Board shall determine the skills and qualifications needed to fill the vacated position in such a way that meet current organizational needs and fills statutory requirements for board make-up, prior to advertising the opening. However, the following skills, qualifications, and expectations will be consistently required of any candidate seeking a board position:

a) Willingness and ability to work and communicate effectively with a team;
b) Willingness to fully participate in board discussions and decisions in open, public meetings;
c) Willingness and ability to be respectful of Staff and other Supervisors;
d) Functional knowledge of Conservation Districts;
e) Willingness and ability to meet all Supervisor requirements set forth in appropriate Board of Supervisors policies;
f) Willingness and ability to participate in various leadership roles, if needed, such as special committees or board officer position;
g) Willingness and ability to represent the District to other public entities and policymakers upon request of the board;
h) Willingness and ability to complete a Washington State Conservation Commission (Commission) orientation within 90 days of assuming office;
i) Willingness and ability to complete the Open Public Meetings Act and Public Records Management training within 90 days of assuming office;
j) Having a basic working knowledge of email and internet; and,
k) Willing and able to serve the best interest of the citizens of the District and County, with the ability to put aside personal issues and grievances.

Any appointee to a vacant elected supervisor position must still be eligible to serve under WAC 135-110-910. Depending on the current make-up of the board, an appointee may be required to be a landowner or farm operator at the time of the appointment. The District will make such determination before appointing a person to fill the vacant elected supervisor position by using Commission’s form AF2-Mid-Term Elected Position Appointment Verification of Qualifications. At least two of the three elected conservation district supervisors on the board must be landowners or operators of a farm. Definitions for a landowner and farm operator are found in WAC 135-110-110.

Candidate Recruitment

When an elected seat is vacated, the remaining Board Members, with input from Staff, will determine skills and qualifications necessary to meet organization needs and fill statutory requirements. Once qualifications are determined by the Board, a candidate recruitment process will commence.

The Board will enact a proactive candidate recruitment plan, as follows:
The Board will discuss viable candidates that stand out in our community as potential assets to the Board and our organization.

• The Board will decide if there are any candidates they would like to reach out to, and the Board will create an outreach plan for conducting these efforts.

District Staff will enact a passive candidate recruitment plan, as follows:

• Prepare and issue an advertisement in the legal section of the local newspaper, physically post a notice at the District Office, electronically post via social media, and electronically post on the District’s website. The announcement on the website will include the requirements necessary to hold office, time to be served in vacant position, election information, basic duties, and instructions for submitting applications.

Board and Staff can augment this advertising plan to include additional marketing outlets, as needed.

The District Manager will prepare an application form that requests the appropriate information for the Board of Supervisors' consideration of the candidates. Instructions for applying will be available on the District’s website. Candidates must provide an application packet that includes:

• A completed application form
• A resume (no longer than two pages)
• A list of at least three community references (prefer organizations that have collaborative partnerships with the District).

Application packets must be submitted electronically to the District Office, to the attention of the District Manager by a deadline designated by the Board. Candidates submitting the required Application Packets materials by the deadline will be circulated to the Board and the District’s assigned Commission Regional Manager. The decision as to which candidates will be interviewed will be determined by the Board, based on information contained in the application packet.

Candidate Interviews

The Vice Chair (or other board designee) will conduct the reference checks and input from Staff will be collected, disseminated, and reviewed by the Board, prior to candidate interviews. The Board will determine interview questions, with Staff input, and ensure that each applicant is asked the approved set of questions, prior to interviews.

Interviews with candidates must be held in an open public meeting. The Board will interview candidates at the next regularly scheduled board meeting following the application deadline, unless that period is less than two weeks. In such a case, a Special Board meeting may be requested by the Chair. The District Manager will notify applicants of the location, date and time of the candidate interviews.

The candidates' order of appearance will be determined by the date and time their application was received. The Board shall ask the pre-determined set of questions, which must be responded to by the candidate. Each applicant will be asked to answer the same set of questions. Follow up questions, based on responses, are permitted. An informal question and answer period of up to 10 minutes may be allowed upon agreement of a majority of the Board, in which the Board and Staff asks and receives answers to miscellaneous questions.
Appointing a Candidate
The Board will base their candidate selection decisions upon information contained in the application packet, the references, interviews, and other material gathered through public avenues, as necessary, to choose a representative of the District. Upon completion of the interviews, the Board may deliberate on the candidate(s). The meeting Chair shall poll the Board to determine if they are prepared to vote. The selection of a candidate to fill the vacancy is made by a majority vote of the remaining Board Members. Voting will take place in the open meeting and outcomes recorded in the minutes. The Board may postpone an appointment decision until another date, if a majority vote is not received. In addition, the Board may decide by majority vote that none of the candidates meet the desired and/or required qualifications needed to balance the Board makeup and maximize benefit to district functions. In this case, the Board will designate a new application deadline in the future. Active and passive recruitment would occur again during the interim.

It is noted the Board may convene into Executive Session to discuss the qualifications of the candidates, pursuant to RCW 42.30.110(1)(h). However, all interviews, nominations, and votes taken by the Board must be held in open public session. The Board may not determine who to select or reach a consensus on a preferred candidate in Executive Session.

Once appointed, the new Board Member will assume their board responsibilities immediately. The term of the candidate selected to fill the vacancy will be in effect until the current term expires. The incumbent may choose to run for election at that time.
